

Smiths Falls Nurse Practitioner-Led Clinic

JOB DESCRIPTION

PHARMACIST

SUMMARY

The Smiths Falls Nurse Practitioner-Led Clinic provides exemplary comprehensive primary health care services to the residents of Smiths Falls and the surrounding counties of Leeds, Grenville and Lanark.

Under indirect supervision, and working as part of the interdisciplinary team, the Pharmacist provides high quality professional services and medication management expertise to support the client's health and wellbeing and improve health outcomes consistent with the vision of the Smiths Falls NPLC. The Pharmacist works to the full scope of practice in accordance with the Ontario College of Pharmacists.

ACCOUNTABILITY

The Pharmacist collaborates with all team members and reports to the management team. The Pharmacist must comply with the standards of practice guidelines of the Ontario College of Pharmacists.

ROLES AND RESPONSIBILITIES

Medication Optimization

- The Pharmacist will apply knowledge to identify, prevent, and/or resolve medication-related problems in individual clients. This may include a comprehensive assessment of a client's medication regime synthesizing information from multiple sources to identify, prevent, and/or resolve medication-related problems. Recommendations are made to the nurse practitioner or to the client when appropriate.
- Documents care provided in keeping with policies and procedures of the SFNPLC
- Provides drug information to the team to address questions related to individual clients or generally to support best practices within the Clinic

Team and Clinic Responsibilities

- Promotes and participates in an interdisciplinary provider model. Collaborates with both providers and clients to ensure that appropriate medication management is provided.
- Participates in the development and evaluation of policies, protocols, and procedures to improve client care and/or promote co-operative and efficient staff functioning.
- Contributes to the development of program plans and develops, plans, implements, coordinates, and evaluates assigned projects in consultation with other team members.
- Participates in the education of students

- Ensures that required statistics are recorded and participates in their analysis
- Contributes where necessary to evaluation processes
- Performs other duties as assigned

The above duties are representative but are not to be considered all-inclusive.

QUALIFICATIONS

- Bachelor's degree in pharmacy
- Current Part A licensure with the Ontario College of Pharmacists
- Completion of an advanced degree or completion of a hospital or community pharmacy residency or equivalent clinical experience in either setting is considered an asset
- Work competently in an interprofessional practice setting
- Previous related client care experience, specifically in a primary care setting preferred
- Ability to prioritize, manage time effectively and be flexible in a very active work environment
- Ability to operate with the highest level of confidentiality and discretion
- Strong interpersonal skills
- Ability to work flexible hours
- Ability to travel throughout Smiths Falls and the surrounding counties of Leeds, Grenville and Lanark
- Demonstrated computer skills
- CPIC required
- Certified Diabetes Educator an asset
- Minor ailments training/knowledge required
